

FOR U.S.-BASED FREIGHT FORWARDERS & IMPORTERS

Your Boots on the Ground for Supply Chain Crisis Resolution & Legal Liaison

Physical Executive Proxies & Legal Advisory Liaison Services — Ho Chi Minh City & Southern Vietnam

THE WESTERN SUPPLY CHAIN CRISIS

Blind Spots & Bureaucracy, 12 Time Zones Away

Managing a manufacturing and import pipeline in Vietnam from across the globe creates real exposure. When a container is detained at Tân Cảng – Cát Lái Port over a customs dispute, an incorrect HS code classification, or a missing sub-license, every day adds compounding demurrage fees and shrinks your retail window.

A 12-to-15-hour time-zone gap means long communication delays, linguistic friction, and limited visibility — and standard freight forwarders rarely have the standing to break a port deadlock remotely. ProxiGlobe closes that gap: we are your dedicated physical executive proxy on the ground in Ho Chi Minh City, working directly with our licensed Vietnamese corporate law firm partner as a Western-managed team that resolves crises, protects your assets, and gets cargo moving again.

“Western-managed. Physically present. Legally licensed. Your special-operations team for Vietnam supply chain crises.”

FCPA-COMPLIANT · REAL-TIME CRISIS RESPONSE · IP & ASSET PROTECTION

WHO THIS IS FOR

Built for the Teams Managing Vietnam Risk

Supply Chain & Sourcing Leaders

Directors and VPs accountable for on-time delivery out of Vietnamese factories and ports.

Import Compliance & Legal Counsel

In-house counsel and compliance officers who need FCPA-clean, auditable interventions.

E-Commerce & DTC Brands

Fast-scaling brands moving production to Vietnam without a local team on the ground.

Private Equity & M&A Due Diligence

Deal teams who need independent, verified facts on a Vietnamese factory or supplier before closing.

CORE PROTECTIONS**Tailored for International Importers****01 100% FCPA-Compliant Resolution**

Western enterprises face real FCPA and anti-bribery exposure navigating foreign customs deadlocks. ProxiGlobe operates strictly above-board — flat, transparent concierge fees, zero under-the-table payments, and every legal intervention invoiced cleanly by our licensed partner law firm.

02 Real-Time Crisis Intervention & Physical Footprint

Losing control when a manufacturer goes quiet, or customs demands documents in person, can stall a shipment for weeks. We deploy rapid 24-hour express and direct emergency crisis response — English-fluent proxies hand-deliver authenticated documents, secure red-stamp notarizations, and engage terminal executives directly at the gate.

03 Upstream Asset & Intellectual Property Protection

Missed production milestones or cargo blocked at customs due to local trademark hijacking can derail a launch. We protect your trade lane before the vessel sails: pre-shipment container loading supervision and seal verification, DPI entity and factory audits, and NOIP trademark registration to secure your brand assets.

WORKFLOW**A Seamless, High-Efficiency Corporate Process****1. Immediate Intake**

Deploy ProxiGlobe via a streamlined intake brief the moment a bottleneck occurs.

2. Ground Activation

Physical proxies reach the port, factory, or municipal office within hours.

3. Legal Alignment

Our partner law firm handles litigation, contract enforcement, or sub-licensing under local jurisdiction.

4. Direct Invoicing

Transparent, itemized billing — concierge fees cleanly separated from legal pass-through costs.

Your Ground Control in Vietnam

Stop managing high-stakes supply chain crises through late-night emails and unverified reports. Put trusted, compliant, Western-led proxies directly on the terminal floor.
