

FOR FREIGHT FORWARDERS & COMPANIES BASED IN VIETNAM

Your Special Operations Partner for Port Crisis Resolution

On-the-Ground Executive & Legal Liaison Services — Ho Chi Minh City & Southern Vietnam

THE LOGISTICS DILEMMA

When Cargo Gets Stuck, Everyone Loses

In the high-volume, low-margin world of freight forwarding, a single detained container at Tân Cảng — Cát Lái Port or a regional ICD can destroy a customer relationship. Customs disputes, incorrect HS code classification audits, and missing specialized sub-licenses cause massive daily demurrage and detention fees.

Your operations team ends up babysitting one bottleneck instead of booking new freight — and carries real liability if they give incorrect regulatory advice. ProxiGlobe bridges that gap as an independent, neutral crisis partner. We do not move freight and we are not your competitor — we step in exclusively to resolve regulatory deadlocks, execute physical filings, and get your clients' cargo unstuck fast.

“We don't move freight, and we don't compete with you. We're the crisis team you call when cargo gets stuck.”
